'Space Aliens From The Pentagon'

by **William R. Lyne**

from [DavidIcke Website](#)

recovered through [WayBackMachine Website](#)

My book ([Pentagon Aliens - Formerly 'Space Aliens From The Pentagon'](#)) is related to the following list of little-known, officially suppressed or publically unknown facts:

1. An American citizen (naturalized), [Nikola Tesla](#) (an atheist and a capitalist), invented the flying saucer, before 1900, and reduced it to practice by 1915.
2. The American government helped the Nazis steal the invention from Tesla (who hated the Nazis), and by 1937, the Nazis were secretly developing it at Los Alamos, New Mexico (then called the "p2" project), under the direction of the Baron **Wernher von Braun**, who also collaborated in rocket research with Dr. **Robert Goddard** at Roswell, funded by the American Rocket Society (The Smithsonian Institution and the Guggenheim Foundation).
3. The American government later helped Wernher von Braun, the Nazis, and the [Trilateral Commission](#) and [Illuminati](#) (who still retain control) remove the "KT-p2" Projekt ("KT" is for "Kreisel-Teller" [German, for "Gyrating Plate"], and "p2" is the electronic designation for an "oscillating electromagnetic dipole") to Germany, after 1937.
4. The Nazis, who attempted to develop and use the flying saucer during the war (called "Foo-Fighters" by us, "Fireballs" and "Flying Turtles" by them), were unsuccessful in developing appropriate weapons for it until too late, and finally traded it back to us during the stalemate of 1945, in exchange for amnesty for numerous persons (including many war criminals), and for other concessions and guarantees (many of which are too numerous or incredible to mention here).
5. The U.S. government (NSA, OSI), on behalf of the Trilateral Commission, continues with and enforces a Nazi-originated "Big Lie" program, in which it perpetuates the hoax that flying saucers ("UFOs") are:
 - a. extraterrestrial in origin
 - b. psychological phenomena ("collective consciousness archetypal images", ala C. G. Jung)
 - c. swamp gas
 - d. "free-floating plasmas"
 - e. piezo-electric effects
 - f. ball-lightning
 - g. other natural phenomena
 - h. unknown life forms
 - i. hallucinations
 - j. non-existent
 - k. hoaxes by attention-seekers
 - l. the products of hysteria, insanity, etc., etc.
6. The German navy surrounded the U.S. with 24 U-boats, armed with (V-6?) ICBMs, having celestial guidance systems, and armed with *neutron bomb warheads*, trained on key American cities and centers, in a 1945 stalemate. German Admiral [Karl Doenitz](#) negotiated a secret truce and amnesty agreement with American authorities, under which he was required to order all 24 U-boats "...scuttled, with all hands on board...", under the agreement, pursuant to which Nazi skippers opened the hatches and the subs and all men on board went to the bottom.

Under [Operation Paperclip](#), all Nazi scientific research materials, most of their important scientists, and the "KT-p2 Projekt" technology, were transferred to the U.S. and to the Trilateral Commission corporations, thus attempting to insure that the Illuminati would retain control of the materials. Certain unusual security procedures were initiated to insure this, including the "sacrificing" of some major German scientists to the Soviets, to plant misinformation, and to insure that the hoax was successful.
7. During the war, German scientists bypassed development of the "atom bomb", and built and tested the neutron bomb. German field Marshall [Erwin Rommel](#) and the *Afrika Korps* were originally sent to North Africa to test the neutron bomb, as well as [Tesla's "death ray"](#) (which freezes whole armies); this technology was acquired by American corporations, held chiefly by [David Rockefeller](#), and was later sold in part back to the U.S. government and tested in the '60s, and the same technology was again sold to the U.S. government again in the '70s and '80s, as "star wars" technology.
8. Over 15,000 German military, technical, intelligence, and support personnel were brought to America (mostly New Mexico-Manzano Base, Sandia Base, White Sands Missile Range, Alamogordo, Holloman A.F.B., Los Alamos, etc.) with the "KT-p2" project, in Sept., 1945, at which time, under Operation Paperclip, [Wernher von Braun](#) became Director of Research, U.S. Army Ordnance, Ft. Bliss, Texas; he and his 116 top rocket scientists commenced rocket (and flying saucer) R.& D. at nearby White Sands Missile Range, and Alamogordo.
9. [Howard Hughes "Glomar Explorer"](#) was built to retrieve the 24 scuttled German U-Boats, before terrorists or unfriendly

governments found and retrieved the subs, missiles, bombs, and related technology, and because the WW II German U-boats were powered by a type of magnetic-electric generator (invented by an American named Dort of Virginia) which was superior to nuclear power.

Further details about the German 'ship', the Graf Zeppelin are included in this book; Adolf and Eva (Braun) Hitler were daringly rescued from the Berlin Bunker by flying saucer, piloted by test pilot Hanna Reitsch and long distance flight expert Hans Ulich Rudel. The couple were later protected by the secret amnesty agreement, live their remaining lives under protection of the NATO alliance, in Kassel, Germany, ironically the home of an international monument to *the Holocaust*.

The "Hitlers" even visited America on the invitation of L.B.J. to visit "Hemisfair", the World's fair at San Antonio, Texas, in 1967.

10. Part of the original deceit was under way at Wright-Patterson A.F.B., Ohio, even before the German surrender:
 - [Edgar Cayce](#) was already employed as a technical writer, to revise, adapt, and resume the propaganda work pioneered by [Hans Hoerbiger](#), Hitler's personal guru and astrologer, the official "father of parapsychology", and designer of the Nazi "Big Lie" system, in which the public's credibility 'window' is wallowed into a giant hole, allowing the indiscriminate acceptance of faceless authority and whatever the government says
 - the U.S. government even hired an Ohio naval law professor (and genius) to revise and popularize "Astara" ("Ostara" to Hitler), the Nazi religion based on the Bonpas (Tibetan black magic) religion, imported from Tibet to Germany by general [Karl Haushofer](#), an ordained Bonpas priest, as the basis for the S.S., financed and setup on instructions of the British-American [CFR](#), in 1919
 - the S.S. Bonpas worshipped "Kali Ma" ("Bloody Mother"). This cult founded the ancient Thugee cult of India, and was the basis for the Society of Assassins
 - the concepts of this weird religion related to the mass extermination of people, through many means, including assassinations, exterminations, and war, the basis for all 20th century totalitarian movements.

11. Most forms of mass communication are primarily controlled or produced by the Illuminati:
 - through the secret agencies of our government, to brain wash the public, in the most monumental hoax in history, to socio-economically control the world, and to perpetuate lies designed to obscure the flying saucer's man-made origin and use (as well as to steal and conceal or monolithically control all other advanced technology)
 - the government hires consultants, contract script writers, and teams of Ph.D.s, to create and disseminate "Big Lie" propaganda, in countless pulp magazines and newspapers, and finances and produces books and movies of the "Close Encounters of the Third Kind" ilk, to perpetuate the "extraterrestrial" myth
 - the government controls and manipulates the press, hires lecturers, and organizes and funds UFO groups
 - the government stages "abductions", using actors, drugs, and sets
 - "[Operation Blue Book](#)" was set up at Wright-Patterson A.F.B. to retrieve leaked information and plug leaks, disseminate misinformation, falsely represent "expert, objective, scientific opinion", and to ferret out 'problem people'
 - mystical organizations (such as [A.R.E.](#) - "Association for Research and Enlightenment"- part of the Edgar Cayce Foundation, of Virginia Beach, Virginia [conveniently close to the C.I.A. headquarters]) - are created for the same purposes, and set the stage for the type of mass psychological control of the public required for totalitarian control by mystical cults, such as "Communism", "Naziism", "Synergy", or "psychic" cults.

12. Flying saucers operate on basic, simple, sound (but very carefully obscured) scientific electrical and physical principles, known for over 100 years.
 - Sir [George Clerk Maxwell](#)'s famous equations were 'edited' to remove certain information from 'unclassified' access, and all public sources were thoroughly scoured by the F.B.I. in 1942
 - the flying saucer uses the electromagnetic interaction (which is on a magnitude of "10⁴⁰ (10 to the 40th power) x 2" times greater than the gravitational interaction), to move huge saucers at fantastic speeds in defiance to gravity and inertia, with almost no net energy consumption
 - flying saucers can be powered by unlimited electrical energy extracted from ordinary atmospheric air, based on Tesla's ca. 1900 discoveries
 - (NOTE: [this book](#) tells how to build your own flying saucer)

13. "E.S.P." and "[psychic phenomena](#)" movements (based on Hans Hoerbiger's original Nazi "parapsychology") are orchestrated and promoted by the NSA, as part of the continuation of the original Nazi "Big Lie" program, to dupe and brain wash the public, and to induce unquestioned faith rather than reason; this clandestine manipulation by the government is an unconstitutional abridgement of the U.S. Constitutional First Amendment prohibition against the government's recognition or promotion of an "establishment of religion" (i.e., generally, a mystical belief system based on faith rather than reason).

14. As an underlying cause of the "[Holocaust](#)", a proposal was made by the U.S. Government to the Treaty of Versailles Committee, in 1919. In a document known as "Morgenthau's Pastoral Policy", signed by president [Woodrow Wilson](#) (drafted by his Illuminati advisor, [Hans Morgenthau, Sr.](#)) and presented at Versailles.

Under it, the U.S. attempted to make, as one of the provisions of the German surrender, the extermination of all Germans, as an "inherently warlike race", and the "reduction of Germany to a pastureland". The document, examined by me in 1968, was among the papers of former president [Lyndon Baines Johnson](#), now kept in the Sid W. Richardson Research Center, at U.T., Austin.

15. The "cattle mutilations" phenomenon is an ongoing program of the CIA's Special Operations Division. 'Biological samples' are removed by specially trained flying saucer crews, from thousands of cattle grazing in remote areas, for analysis, to measure radiation-caused auto-immune-deficiency and reproductive sterilization effects, after the cattle have been subjected to irradiation by "Death Ray" devices under development since the 60s.

Since 1979, the saucers have bombarded members of the public, under the [MK-NAOMI program of the CIA](#), for purposes of "population control" (i.e., [extermination](#)). Government scientists use special surgical devices, standard blood coagulants, and cryogenic technology, enhanced by microwave equipment, to remove the cattle blood (and

ears, lips, tongues, mammary glands, genitalia, anuses, etc.); afterward, the carcasses are returned and air-dropped from flying saucers, back into their original pastures; the mysterious circumstances are misconstrued by government-spread rumors of "extra-terrestrials", attributed to "satanist cults" or other cults created by the government, or "coyotes and other natural predators", etc. (of course, MAN is a "natural predator".)

(For more on this, see Chapter III: "[I Meet a Government M.I.B. in Santa Fe: Hollywood on the Take](#)", and Chapter IV: "[Sightings](#)".)

16. The Antarctic "Ozone Hole", which U.S. government scientists pretend to be at a loss to explain-yet blaming it on 'aerosol sprays'-is probably the by-product of three nuclear missiles, armed with hydrogen bomb warheads, which were launched from the Antarctic by the U.S. military, on Aug.27, Aug.30, and Sept. 9, 1957.

The warheads were detonated at a 300-mile altitude, to create a reflective spherical layer of ionic particles surrounding the earth, to bounce radar impulses between the layer and the earth. The Strategic Air Command's global "backscatter" radar system, operated from the *North American Air Defense (NORAD)* command center deep beneath the earth at Cheyenne Mountain, Colorado, thus became operational in 1957, in time to verify that the Russians fired the rocket which launched Sputnik.

17. The NSA protracts a false "national security" veil, to continue concealment of flying saucer technology, creating false fears of 'rampant anarchy', 'chaos', and other exaggerations and ruses, before NSA, committees, to justify continued secrecy, and to continue to deny public access to, or to declassify the technology. (If society isn't ready for it, how can THEY be?)
18. The true scientific principles of gravity have been misrepresented, confused, and concealed by "Big Brother", even in school books read by our children, just to *conceal flying saucer technology*, to *protect the energy cartels* and the mixed-economy socialist political power structure from losing its illegitimate parasitic grip on us.
19. In 1897, [Nikola Tesla](#), a patriotic naturalized U.S. citizen, of Serbo-Croatian birth, discovered and published a new theory of energy and gravity, called the "Dynamic Theory of Gravity", which represented a unified field theory. Tesla's energy equation, " $C=E/R$ ", and Tesla's application to the Swiss Patent Office for his flying saucer patent, was made while Albert Einstein was a second class patent clerk there. Einstein's work was an Illuminati conspiracy to obliterate Tesla's discoveries, so the Illuminati could control flying saucers.
20. The government's policy of looting and suppressing ideas from independent scientists, inventors, and thinkers, on behalf of the [Trilateral Commission](#), is related to this process, involving
 1. stealing ideas from creative individuals
 2. destroying those individuals' credibility, to conceal the sources and technology
 3. ruining the lives of those individuals (even murdering them if necessary), and denying compensation or credit
 4. exercising the option to suppress the ideas under "national security laws", or giving the discoveries to their corporate crook partners for exploitation
 5. abusing and misusing the judicial system to carry out and enforce this illegitimate, criminal process.
21. I am either correct in what I say, or am entitled to a Nobel Prize for new discoveries in gravitational theory and nuclear physics. The former is most certainly true. Since Russia in fact acquired the services of the top Nazi flying saucer scientist, and the top rocket scientist, from the Peenemunde operation, in 1945, here is a strong possibility that the Russians were privy to these secrets.

CONCLUSION

Some of you who have taken the time to read this letter, have the means to verify what I say. Others, who are among the guilty, will naturally be threatened. Others know me, and may have even offered me a high government position, which I refused. Some may shrug me off as a "harmless nut", while others may seek to harm me even more.

Those who know the truth, and failed or refused to use their power to restrain the abusive government, criminals, courts, and lawyers, are responsible for causing me to say these things, and have inadvertently liberated this truth, which is my means of self defense, an inalienable natural right.

Bureaucrats naturally underestimate the power of the individual, since they are collectivists who lack a concept of individuality, operating under the delusion of "the invincibility of the state". I may not have become angry enough to publish this expose', if they had not continued to harass me.

However, what I say I HAD to say, and would have said it much sooner had it not taken me so long to gain the opportunity between harassments. Even though I am aware of the danger to me and my family, and since there have already been several murder attempts, any one of which could have succeeded, I say this while there is still an opportunity to do so, and remove their motive from the equation. Besides, it is really they who are afraid of the truth.

This letter is not intended to advance or affect any pending litigation. Those of the judiciary have already proclaimed their prejudice against me, all my pleadings having fallen upon deaf ears. This letter should not affect rights which have already been predisposed in the anti-individual bigoted courts, according to them.

This letter represents my civil disobedience, freedom of speech and expression of political opinion, declaring the right to the disposition of the products of my own creativity, and to protest the hypocrisies of our government and courts, as a citizen, a human being, an American, and a Citizen of the World.

Nothing in this book was procured in violation of any law, including "national security laws"; our government officially denies a national security interest in flying saucers, denies their existence, and we are entitled to take our government at its word, albeit unreliable and false.

Those who deny the existence of flying saucers, or who falsely assume that they are extraterrestrial, are either the victims of government/corporate-state fraud, are irrational, brainwashed dupes, or are government liars. Those who make the most

rational assumption-that "flying saucers are man-made flying machines" - will eventually be vindicated by history, since the truth will be known sooner or later, and it is already very, very late.

I would have invented the flying saucer if it had not already been invented, since the concept occurred to me when I was a boy studying electricity. At age 15, I prepared for a career in aerodynamics, until I witnessed a flying saucer in broad daylight, in the company of seven other intelligent witnesses. Believing that aerodynamics would be an obsolete field by the time I finished college, I cancelled my plans.

I would never have expected the secrets still to be hidden over forty years later, with aerodynamics still be a viable field, due to the continued suppression. I had been building powered model flying saucers for four years before my first close-up daylight sighting in 1953. I knew that flying saucers were real, man-made flying contraptions, powered by electricity.

While saucers are visually fantastic, with their brilliant electrical corona discharges, emission of "metallic colors", and movement in rapid bursts, changing directions instantaneously, there was nothing which could not be explained by electronic and physical theory. I could see concentric striations on a somewhat crudely spun metal hull (probably a tungsten alloy), which was a crude, early form of "stealth" radar evasion technology, which "extraterrestrials" would have had no use for.

The spreading of confusion and lies shows something important to hide, involving high priorities, and highly trained and well-paid people. The patterns of this deceit reveals the substance of hidden knowledge, extracted by a time-consuming process. It is best not to believe anything until you have a reason to believe it.

This chapter caps off over 17 years of overt judicial harassment which ensued the moment [George Bush](#) took power at the CIA. Bush is a pal with fellow Trilateralist-Republican, [Robert O. Anderson](#), the man who controls the [North Slope of Alaska](#) and [the HAARP project](#). Anderson would now probably disavow any connection to ARCO, which he created. He now claims bankruptcy.

Chapter 1 can be thought of as a kind of "Revolutionary Manifesto of Laissez Faire Capitalist Creatology"- (i.e., a manifesto of a radical, new artistic and scientific religion, based on the "Science of the Creative Process"). It is a non-mystical, rational religion.

In 1979, I acquired a "*Peiltochterkompass*" (German, for "polar-daughter-[i.e., "slave"] compass"), a crude, 1943 , WW II-vintage, German navigational device (the earliest type of celestial guidance system), which was interconnected to a "master compass" (a gyrocompass oriented to the north pole). It triggered bi-polar pairs of electrodes in the hull of the "KT-p2".

The flying saucer and its scientific principle, is the world's greatest invention, which mankind has been denied the benefits of for over fifty years, by the coercive monopolists, through government harassment, murder, secrecy, misinformation, hoax and other deceptions.

It is now time to end this hoax upon the American people by their own government, and to end corporate-socialism and tax-slavery, and to return power to the individual.

It is time for creative mankind to remove this yoke from its neck, and to move forward with a truly new world order of creative, laissez-faire capitalist civilization, with a free flow of beneficially creative ideas, associations, and products among mankind, in a peaceful world, peopled by creative, free, autonomous and self-sufficient individuals, whose bounty can provide for all.

We have nothing to lose except stupidity.

NOW LET IT BE KNOWN that those who are responsible for what I am now saying, are supported by pillars of lies, and have set a philosophical wrecking ball into motion, which will eventually smash down their own foundations.
